3. Which two of these could be used to help “Explain two contrasting views on capital punishment” (4)
a) The Bible states an “eye for an eye” so it should be a life for a life. If you kill it is only fair that you should lose your own life in return.
b) Muslims believe all people have the inherent knowledge of right or wrong.
c) Jesus taught that his followers should visit those in prison.
d) The Bible states “do not kill”, no human has the right to kill another even in punishment for a crime.

5. Which teaching would you use in the 5 mark question “Explain 2 religious beliefs about the origin of evil”?
a) “love your enemies and pray for those who persecute you”
b) “Do not kill”
c) The Genesis story – Adam and Eve disobeyed God and were expelled from the Garden of Eden.
d) “Turn the other cheek”

4. What are two strengths of the argument that prisons are the best way to punish criminals.	What are two weaknesses of the argument that prisons are not the best way to punish criminals.
a) In prisons criminals can be educated and reformed, so when they leave there is less chance of them committing crime.	a) Crime causes human suffering and therefore is a type of evil.
b) Christians support the idea that there needs to be punishment for crime, if you take something you should lose your freedom.	b) Christians should support the victims of crime as it’s a way to show “love your neighbour”
c) Suffering can be a good thing, Christians can better understand Jesus’ suffering through their own.	c) Prisons can treat some people unfairly, Christians campaign for better treatment of criminals so they do not get further into crime.
d) Christians are taught that they should look after others.	d) Religious people believe that criminals should be reformed, work in the community is the better way to reform criminals.
